INTRODUCTORY STATEMENT

(In Millions of Dollars)

FY 1995 <u>Actual</u>	FY 1996 <u>Estimate</u>	FY 1997 <u>Estimate</u>
2,139.0	2,420.5	2,203.8

The Operation and Maintenance, Marine Corps appropriation provides the funding for Marine Corps missions, functions, activities and facilities except for those requirements related to: procurement of major items of equipment and ammunition, military personnel, military family housing, operation and maintenance of the Marine Corps Reserve and those functions supported by Navy sponsored appropriations.

The funds contained in this appropriation are intended primarily for the support of the Fleet Marine Forces which consist of 174,000 active military and 14,773 civilian personnel in FY 1997. The primary Marine Corps objective is to train and maintain the Fleet Marine Forces at a high level of combat readiness for service with the fleet, ashore or for such other duties as the President may direct.

The two Fleet Marine Forces supported by this appropriation are composed of Marine Expeditionary Forces (Division/Wing/Service Support Group Task Organizations), including a combination of combat and combat service support organizations and a variety of supporting units. Funds are also provided to support two landing force training commands, Marine detachments afloat, the security forces assigned to naval and other government activities ashore, maritime prepositioning ships and Norway prepositioning.

FY 1997 PRESIDENT'S BUDGET
EXHIBIT OP-5

INTRODUCTORY STATEMENT

Shore facilities receiving funding support from this appropriation are: three major unit support bases; two recruit depots; ten air installations; two logistics bases; one Marine Corps Combat Development Command; one Marine Corps Systems Command; one Marine Corps Air-Ground Combat Center; and two Expeditionary Warfare Training Groups.

These facilities are being maintained at standards that will permit effective utilization, avoid major replacement costs, and allow operation and maintenance on an economical and effective basis.

The individual training of enlisted personnel and officers from basic training to the highest Marine Corps technical training and the advanced training at schools of the other Services and at civilian institutions is supported by funds in this appropriation. Such schooling is designed to produce highly trained and disciplined officers and enlisted personnel for duty with the Fleet Marine Corps, capable of leadership growth as well as effective performance.

This appropriation also supports the Marine Corps supply system. The principal objective of the supply system is to provide Marine activities/units with the proper material and equipment in the quantity, condition, time and place required. Further, it supports other miscellaneous activities such as special training, second destination transportation of things, recruiting, equipment overhaul and repair and miscellaneous expenses.

Budget Activity: 1 - Operating Forces

I. Description of Operations Financed: The Operating Forces budget activity is comprised of the activity groups Expeditionary Forces and USMC Prepositioning.

The Expeditionary Forces activity group provides for the operating forces that constitute the Marine Air-Ground Team and Marine security forces at Naval installations and aboard Naval vessels. The field logistics and depot maintenance programs in support of the operating forces are included in this activity group. Also financed are the base support functions for Marine Corps Bases, Camps, Air Stations and Logistics Bases supporting the Fleet Marine Forces.

The USMC Prepositioning activity group finances the Maritime Prepositioning Forces (MPF) program, the Norway Air-Landed Marine Expeditionary Brigade (NALMEB) program and the Aviation Logistics Support Ships (TAVB) program.

II. Force Structure Summary: The Operating Forces Budget Activity provides O&M support to the following areas: Land Forces, Naval Forces, Tactical Air Forces, Supporting Installations and Prepositioning Program support.

Budget Activity: 1 - Operating Forces
Activity Group: 1A - Expeditionary Forces

I. Description of Operations Financed: The Expeditionary Forces activity group provides for the Operating Forces that constitute the Marine Air-Ground Team and Marine security forces at Naval installations and aboard Naval vessels. The funds provided will finance training and routine operations, the maintenance and repair of organic ground equipment, routine supplies, travel, per diem and emergency leave, automatic data processing and initial purchase as well as replenishment and replacement of both unit and individual equipment. Financing is also provided for the movement of troops to participate in exercises either directed by higher authority or by the Commandant of the Marine Corps.

The Field Logistics subactivity provides the resources necessary for overall weapons system management and logistics support required to meet the operational needs of the Marine Corps. This specifically includes overall management of weapon systems/equipment support through the total life cycle; maintenance of service-wide stores and allotment accounting system; technical support of weapon system acquisition; monitoring quality assurance programs; implementation of configuration management program; implementation of total service-wide provisioning; and research, design and development of Marine Corps uniforms and specialized dress requirements. The mission also includes the assembly and disassembly of sets, kits, chests, collateral materiel and end-item components; and the management of the Marine Corps' worldwide mail order uniform clothing support. Funds also provide for the reimbursement of Defense Logistics Agency for the supply and distribution system that receives, stores, maintains and distributes the materiel required to meet the operational needs of the Marine Corps.

Other Field Logistics areas supporting the Fleet Marine Forces are: Post Deployment Software Support (PDSS); Life Cycle Support; Contractor, Engineering and Technical Services (CETS); Ammunition Renovation/Inventory Management; Missile Maintenance; and operating costs for Marine Corps Tactical Software Systems Activity (MCTSSA).

O&MMC

DEPARTMENT OF THE NAVY
OPERATION AND MAINTENANCE, MARINE CORPS
FY 1997 PRESIDENT'S BUDGET
EXHIBIT OP-05

Budget Activity: 1 - Operating Forces
Activity Group: 1A - Expeditionary Forces

Depot Maintenance finances major repair and rebuild of Marine Corps ground equipment and the cost of installation of modification kits. Repair/rebuild operations are scheduled based on valid stock requirements and the most cost effective means of satisfying those requirements. The majority of the repair/rebuild work is performed at the Marine Corps Logistics Bases in Albany, Georgia, and Barstow, California.

Base Support for various Marine Corps bases and stations is funded in this activity group. The following categories detail the areas financed:

The administrative services category includes such functions as installation financial and military/civilian manpower management and base safety and legal services. The specific services category finances organic supply operations in support of the installations, including vehicle operation and maintenance.

The community support services category provides for support of living facilities, food services, recreation areas, special services programs and common use facilities.

The facility services category consists of utilities operations and other engineering support. A portion of these funds are used to make repairs required to meet environmental standards.

The base communication category includes the operation and maintenance of telephone systems, including record communications (data card, magnetic tape, teletype), radio and facsimile equipment and the administrative costs associated with message reproduction and distribution. Also included are payments for long distance toll charges.

Also included under Base Support are injury compensation payments and procurement of collateral equipment required to initially outfit new military construction projects at Marine Corps bases, posts and stations.

OPERATION AND MAINTENANCE, MARINE CORPS
FY 1997 PRESIDENT'S BUDGET
EXHIBIT OP-05

Budget Activity: 1 - Operating Forces
Activity Group: 1A - Expeditionary Forces

II. Force Structure Summary: The Expeditionary Forces Activity Group provides O&M support to the following forces and supporting establishments:

a. Land Forces. Encompasses the ground portion of the Fleet Marine Forces and includes those forces in the three Marine Divisions, three Force Service Support Groups, five helicopter Groups and two Light Antiaircraft Missile Battalions. The forces are located at installations on the East and West coasts of the United States, at bases in the Pacific Ocean Area, and aboard amphibious ships of the United States Navy. The specific missions of the Fleet Marine Forces are: (1) To serve with the fleets in the seizure or defense of advance Naval bases and in the conduct of such land operations as may be essential to the prosecution of a Naval campaign; (2) To participate as directed by the Commandant of the Marine Corps in the development of doctrine, tactics, techniques, and equipment used by landing forces in amphibious operations; (3) To train and equip Marine forces for airborne operations as directed by the Commandant of the Marine Corps; (4) To train the maximum number of personnel to meet requirements for expansion during time of war; and (5) To perform such other duties as may be directed.

b. Naval Forces. Provides Marine forces for duty at sea and ashore for security aboard Naval vessels and naval stations and provides forces from the Marine Air-Ground Team for participation in exercises as directed by the Joint Chiefs of Staff (JCS). The objectives of the Marine Corps in this area are to: (1) Ensure that highly qualified Marines are assigned to Naval security forces; (2) Provide Marine security forces for duty aboard Naval vessels; (3) Provide adequate materiel support for the unique requirements of Marine security forces; (4) Maintain Marine Air and Ground Forces at a state of readiness capable of participating in exercises as directed by the JCS; and (5) Provide materiel support to Marine forces and other allied forces participating in JCS exercises aboard or in the vicinity of Marine Corps installations.

OPERATION AND MAINTENANCE, MARINE CORPS
FY 1997 PRESIDENT'S BUDGET
EXHIBIT OP-05

Budget Activity: 1 - Operating Forces
Activity Group: 1A - Expeditionary Forces

c. Tactical Air Forces. Encompasses the Marine Corps tactical air forces that participate as the air component of the Fleet Marine Forces in the seizure and defense of prosecution of the Naval campaign. Tactical Air Forces, components of Marine Corps aviation, are structured to provide a balanced task organization designed to provide fixed wing air support for Marine Corps ground forces. The concept of employment envisions formation of a Marine Air-Ground Task Force (MAGTF) specifically tailored to meet anticipated requirements of the assigned tactical objective, to include offensive air warfare, and command and control of aircraft and missiles. Inherent in these functions are the tasks which include close air support, interdiction, air superiority and air control. A collateral function of Marine Corps tactical air is to participate as an integral component of Naval aviation in the execution of other Navy functions as the fleet commanders may direct.

d. Supporting Installations. This activity group supports the base operations of Marine Corps Bases at Camp Lejeune, Camp Pendleton, Marine Corps Air-Ground Combat Center, Twentynine Palms and Camp Butler; Marine Corps Air Stations/Facilities Cherry Point, Beaufort, New River, El Toro, Tustin, Yuma, Miramar, Kaneohe Bay, Iwakuni, Futenma, and Camps Smith and Elmore; and Marine Corps Logistics Bases Albany, Georgia, and Barstow, California.

Budget Activity: 1 - Operating Forces
Activity Group: 1A - Expeditionary Forces
Sub-Activity Group: 1A4A - Maintenance and Repair

I. This sub-activity funds maintenance and repair (MRP) for the Expeditionary Forces Activity Group. MRP funds the following:

Maintenance and repair and minor construction of facilities. The maintenance and repair program is required to maintain and repair runways, buildings, utility plants and other infrastructure items. Minor construction is both the building of new facilities and improvements or alterations of existing facilities. Minor construction projects are a result of essential new missions, introduction of new weapons and equipment, changes in facilities use and modifications of older facilities to meet current standards.

II. Force Structure Summary. This sub-activity group funds MRP functions for Marine Corps Bases at Camp Lejeune, Camp Pendleton, Marine Corps Air-Ground Combat Center, Twentynine Palms and Camp Butler; Marine Corps Air Stations/Facilities Cherry Point, Beaufort, New River, El Toro, Tustin, Yuma, Kaneohe Bay, Iwakuni, Futenma, and Camps Smith and Elmore; and Marine Corps Logistics Bases Albany, Georgia, and Barstow, California.

Budget Activity: 01- Operating Forces
Activity Group: 1B - USMC Prepositioning

The land prepositioning program, NALMEB is a DoD directed, NATO initiative with was established to provide NATO with a rapid reinforcement capability on its northern flank. The program was designed to significantly reduce strategic airlift requirements, forces closure time, and provide wider strategic options for rapidly reinforcing the northern flank with a potent, sustainable force. Prepositioning equipment and supplies designed to support a 13,200-man MEB are stored in six man-made caves in central Norway. The MEB flies into Norway using a minimum amount of strategic airlift, marries up with the equipment and supplies, and redeploys throughout Norway as needed. The Battle Griffin exercise is designed to test all aspects of NALMEB (deployment of forces from CONUS, withdrawal of equipment and supplies from cave sites, redeployment of equipment and supplies, integration of U.S. and Norwegian forces, etc.).

The Aviation Logistics Support Ship (TAVB) provides for the movement of the aviation Intermediate Maintenance Activity (IMA) to support the rapid deployment of the Marine Corps fixed wing and rotary wing aircraft units. There are two TAVB ships, one on each coast, which are maintained in a Ready Reserve Fleet - 5 status by the Maritime Administration (MARAD). Funding is provided for one TAVB to participate in an exercise each year.

Prepositioning exercise ensure units are properly trained in the techniques and procedures required to successfully plan and conduct the offload and distribution of prepositioned equipment and supplies. The successes experienced during Operations Desert Shield/Storm and Restore Hope with MPS and TAVB can be directly attributed to the training prior to these conflicts.

Budget Activity: 01- Operating Forces
Activity Group: 1B - USMC Prepositioning

I. Description of Operations Financed: This activity group finances the Maritime Prepositioning Forces (MPF) program, the Norway Air Landed Marine Expeditionary Brigade (NALMEB) prepositioning program and the Aviation Logistics Support Ships (TAVB). The O&M funding provided for MPF, NALMEB, and TAVB finances training and exercise costs associated with these programs and the cost of maintaining the equipment and supplies in a ready-to-operate status. Funding is also provided to Marine Corps Logistics Base, Albany to support all aspects of maintenance cycle operations for the prepositioning programs. This includes operation support, facility lease, port operations, stevedoring costs, receipt and preparation for shipment costs, and contractor maintenance. Additionally, support costs are administered by Headquarters Marine Corps. These funds provide for contractor support and provide TAD funds which support HQMC sponsored trips and conferences associated with prepositioning programs.

II. Force Structure Summary: The Maritime Prepositioning Force (MPF) gives the unified CINCs a new dimension in mobility, readiness, and global responsiveness. The MPF program involves 13 ships, organized into 3 squadrons. Maritime Prepositioning Squadron One (MPSRON-1) operates in the Atlantic, MPSRON-2 in the Indian Ocean, and MPSRON-3 in the Western Pacific. The MPF reduces the response time from weeks to days by prepositioning the bulk of equipment and 30 days of supplies for a 16,500-man Marine Expeditionary Brigade (MEB) aboard specially designed, strategically deployed ships. The MEB's personnel and selected equipment can be airlifted quickly using approximately 250 strategic airlift sorties to an objective area to join with its equipment. Equipment and supplies can also be selectively off-loaded to support smaller Marine Air Ground Task Forces (MAGTFs). As demonstrated during Operations Desert Shield/Storm and Restore Hope, MPF was integral to the rapid deployment of credible forces to provide combat power and humanitarian assistance. Funding is provided to the operating forces for MPF exercises each year.

Budget Activity: 3 - Training and Recruiting

I. Description of Operations Financed. The resources in this budget activity support recruiting, training, and the education of Marines. Recruit Training encompasses the transition from civilian life to duties as a Marine to include an intense period of training designed to prepare the new Marine for assignment to units of the Fleet Marine Force, major posts and stations, and duty at sea aboard vessels of the U.S. Navy. Officer Acquisition encompasses training candidates for appointment as commissioned officers prior to actual commissioning in the Marine Corps and Marine Corps Reserve. Nominees undergo intense courses of instruction prior to actual commissioning.

Upon completion of Officer Acquisition Training or Recruit Training, the Marine is assigned to courses of instruction to acquire the requisite skills necessary to meet the minimum requirements of a Military Occupational Specialty (MOS). In the case of the officer this course involves completion of The Basic School at the Marine Combat Development Command (MCCDC), Quantico, Virginia, and the assignment to a MOS qualifying course such as the Infantry Officer Course or the Command and Control System School. The enlisted Marine undergoes specialized skill training at Marine Corps installations or at schools of other services, depending on his designated MOS.

This budget activity also provides training support for costs associated with travel and per diem for those Marines attending service and civilian schools away from their permanent duty stations. Also, included are costs for training support equipment, audiovisual aids, computer-assisted training programs, and direct administrative support to the training management function, formal schools, Marine Corps Training detachments and Marine Corps Institute.

OEEMMC

DEPARTMENT OF THE NAVY
OPERATION AND MAINTENANCE, MARINE CORPS
FY 1997 PRESIDENT'S BUDGET
EXHIBIT OP-5

Budget Activity: 3 - Training and Recruiting

This budget activity also supports total force Recruiting and advertising, Off-Duty Education for Marines, Junior Reserve Officer Training Corps, and Veterans' Educational Assistance Program. The recruiting effort is organ on a total force basis that tasks the individual recruiters to procure accessions (officer and enlisted) for both regular and reserve forces. This activity also provides for advertising to facilitate and encourage face-to-face contact between the potential applicant and the procurement force, and is structured to utilize all conventional media in delivering Marine Corps impressions, with direct mail and magazines used primarily as lead-energizing media.

Base operations supports two recruit depots, the formal schools located at Quantico, Virginia and the recruiting districts. The following services provided by base operations support are:

The administrative services category includes such functions as installation financial and military/civilian manpower management and base safety and legal services. The specific services category finances organic supply operations in support of the installations, including vehicle operation and maintenance. The community support services category provides for support of living facilities, food services, recreation areas, special services programs and common use facilities. The facility services category consists of the maintenance, repair and minor construction of facilities, utilities operations and other engineering support. A portion of these funds are used to make repairs required to meet environmental standards. The base communication category includes the operation and maintenance of telephone systems including record communications (data card, magnetic tape, teletype), radio and facsimile equipment and the administrative costs associated with message reproduction and distribution. Also included are payments for long distance toll charges.

Also included under base Support are injury compensation payments and procurement of collateral equipment required to initially outfit new military construction projects at Marine Corps bases, posts, and stations.

O&MMC

DEPARTMENT OF THE NAVY

EXHIBIT OP-5

Budget Activity: 3 - Training and Recruiting

II. Force Structure Summary: This budget activity conducts recruit training at one of two Marine Corps Recruit Depots located at Parris Island, South Carolina or at San Diego, California. This activity group also include four programs that input officer candidates for screening at the Officer Candidate School, Quantico, Virginia. These are: the Platoon Leaders Class, Officer Candidates Course, Naval Reserve Officers Training Course (Marine Option), and the Enlisted Commissioning Program. A fifth program, the Marine Enlisted Commissioning Education Program is conducted at civilian education institutions.

This budget activity also includes the direct support of specialized skills training at seven Marine Corps commands, professional development training at 9 Marine Corps schools, the Marine Corps University and the Marine Corps Research Center. Administrative support for detachments at other service location such as the detachments at the Naval Air Stations, Pensacola, FL and Corpus Christi, TX is also provided in this budget activity.

This activity further provides resources and support to the Total Force procurement effort to enable enlisted and officer procurement personnel to achieve predetermined force levels in both quality and quantity accessions. The Marine Corps Total Force recruiting program tasks individual recruiters to procure accessions for both regular and reserve forces. Officer procurement is the primary function of Officer Selection Offices.

Resources also support the Off-Duty Education Program which provides approximately 48,000 Marine Off-Duty education and funds the Junior ROTC and Veterans' Educational Assistance programs.

I. Description of Operations Financed: The transition from civilian life to duties as a Marine occurs as a result of recruit training for new enlistees conducted at one of the two Marine Corps Recruit Depots located at Parris Island, South Carolina and at San Diego, California. This intense period of training is designed to prepare the new Marine for assignment to units of the Fleet Marine Force, to major posts and stations, to duty at sea aboard vessels of the U.S. Navy, and to specialized skill training prior to assignment to a unit.

Candidates for appointment as commissioned officers to the Marine Corps and Marine Corps Reserve undergo intense courses of instruction prior to actual commissioning. This category includes four commissioning programs: the Platoon Leaders Class, Officer Candidates Course, Naval Reserve Officers Training Course (Marine Option), and the Enlisted Commissioning Program (MCEP).

Base Support for the Accession Training activity group funds the following categories: administrative services, specific services, community support, facility services, base communication, injury compensation payments, and procurement of collateral equipment. Maintenance and repair of facilities and minor construction are also funded in this activity group.

II. Force Structure Summary: This activity group conducts recruit training at one of two Marine Corps Recruit Depots located at Parris Island, South Carolina or at San Diego, California and Officer Candidate training at Quantico, VA. These costs include individual equipment requirements, operation and maintenance of support equipment, administrative functions and routine supplies.

This activity group trains approximately 2,000 officer candidates annually and 42,000 enlisted recruits. Operation and Maintenance funds are required for maintenance of individual and organizational equipment, maintenance and replacement of classroom equipment, training aids, printing and reproduction of individual training material and schedules, candidate processing, general administrative support, civilian salaries, and travel and per diem costs.

Budget Activity: 3 - Training and Recruiting
Activity Group: 3B- Basic and Advanced Skills

I. Description of Operations Financed: Upon completion of Officer Acquisition Training or Recruit Training, the Marine is assigned to courses of instruction to acquire the requisite skills necessary to qualify for a Military Occupational Specialty (MOS).

Marine Corps personnel assigned to duty under instruction prior to qualification as Naval Aviators or Naval Flight Officers are trained either at U.S. Naval Air Station, Pensacola, Florida or U.S. Naval Air Station, Corpus Christi, Texas.

Sub-Activity Group 3B3D, Professional Development educates career Marines to enhance their overall professional development, and to qualify them for increased command and staff responsibilities.

Sub-Activity Group 3B4D, Training Support provides support for costs associated with travel and per diem for those Marines attending service and civilian schools away from their permanent duty stations.

Base Support functions for the Basic Skills and Advanced Training activity group fund the following categories: administrative services, specific services, community support, facility services, base communication, injury compensation payments.

II. Force Structure Summary: This activity group includes the direct support of specialized skills training at seven Marine Corps commands, professional development training at Marine Corps schools, the Marine Corps University and the Marine Corps Research Center, routine administrative support for detachments at other service locations such as the detachments at the Naval Air Stations, Pensacola, FL and Corpus Christi, TX.

This activity group supports unit training at the Mountain Warfare Training Center, Bridgeport, CA and Weapons Training Battalion, Quantico, VA; provides funds for contractor operation and maintenance of approximately 1,408 training devices, provides TAD support for approximately 26,691 Marine students attending formal schools training; supports the training management function at Marine Corps Combat Development Command, Quantico, VA, and the Marine Corps Institute. Annually, the Marine Corps Institute provides approximately 750,000 prep sheets, and 6,000 training packages.

Activity Group: 3B - Basic Skills and Advanced Training
Sub-Activity Group: 3B5D - Maintenance and Repair

I. Description of Operations Financed. This sub-activity group funds maintenance of real property (MRP) for the Basic Skills and Advanced Training Activity Group. MRP funds the following:

Maintenance and repair and construction of facilities. The maintenance and repair program is required to maintain and repair runaways, buildings, utility plants and other infrastructure items. Minor construction is both the building of new facilities and improvements or alternations of existing facilities. Minor construction projects are a result of essential new missions, introduction of new weapons and equipment, changes in facilities use and modifications of older facilities to meet current standards.

II. Force Structure Summary: This sub-activity group funds MRP functions for Marine Corps Base Quantico.

OPERATION AND MAINTENANCE, MARINE CORPS
FY 1997 PRESIDENT'S BUDGET
EXHIBIT OP-5

Budget Activity: 3 - Training and Recruiting
Activity Group: 3C - Recruiting and Other Training and Education

I. Description of Operations Financed: The resources in this budget activity support total force Recruiting and Advertising, Off-Duty Education for Marines, Junior Reserve Officer Training Corps, and Veterans' Educational Assistance Program. The recruiting effort is organized on a total force basis that tasks the individual recruiters to procure accessions (officer and enlisted) for both regular and reserve forces. This activity also provides for advertising to facilitate and encourage face-to-face contact between the potential applicant and the procurement force, and is structured to utilize all conventional media in delivering Marine Corps impressions, with direct mail and magazines used primarily as lead-generating media.

The Marine Corps' Off-Duty Education program provides Marines an opportunity to enhance their career through education programs. The Basic Skill Education Program (BSEP) is an on-duty program which is designed to remedy deficiencies in reading, mathematics, and the language arts. Other levels of education financed in this program are high school completion and college level undergraduate and graduate courses.

This activity finances the Defense Department's share of the costs for instructors and provides administrative supplies, tests, and training aides for Marine Junior Reserve Officer Training Course Units. Also included is reimbursement to the Veterans' Administration for the Marine Corps' share of the costs of the Veterans' Educational Assistance Program (VEAP).

Base Support operations for 8th & I, the First Marine Corps District, and other Recruiting Districts are represented in this budget activity. Funding is generally for recurring costs, or for telecommunications to support the recruiting mission of the Marine Corps.

Budget Activity: 3 - Training and Recruiting
Activity Group: 3C - Recruiting and Other Training and Education

II. Force Structure Summary: This activity provides resources and support to the Total Force procurement effort to enable enlisted and officer procurement personnel to achieve predetermined force levels in both quality and quantity accessions. The Marine Corps Total Force recruiting program tasks individual recruiters to procure accessions for both the regular and reserve forces. Officer procurement is the primary function of Officer Selection Offices. A major objective of the Marine Corps Recruiting is to provide quality recruits that will increase combat readiness of the Fleet Marine Force.

The Off-Duty Education Program provides approximately 48,000 Marines off-duty education. This program provides 100 percent of the total cost of the Basic Skills Education Program and off-duty high school courses.

This activity also provides for annual orientation visits by MJROTC units to Marine Corps installations. These units are under the administrative control of the six Marine Corps Districts. Lastly, an estimated 2,000 Marines participated in the Veterans' Educational Assistance Program.

This activity also fund base operations for the Marine Corps Barracks 8th & I and 1st Marine Corps District.

Budget Activity: 03 - Training and Recruiting
Activity Group: 3C - Recruiting and other Training and Education
Sub-Activity Group: 3C4F - Maintenance and Repair

I. Description of Operations Financed: This sub-activity group funds maintenance of real property (MRP) for Recruiting and Other Training and Education activity group. MRP funds the following categories:

Maintenance and repair and minor construction of facilities. The maintenance and repair program is required to maintain and repair runways, buildings, utility plants and other infrastructure items. Minor construction is both the building of new facilities and improvements or alterations of existing facilities. Minor construction projects are a result of essential new missions, introduction of new weapons and equipment, changes in facilities use and modifications of older facilities to meet current standards.

II. Force Structure Summary: This sub-activity funds base support for the Marine Corps Barracks at 8th & I and the Marine Corps Recruiting Command.
